# 1. SURVEY OVERVIEW

## 2. KEY DEFINITIONS

**Household:** All individuals who are living together and have communal arrangements concerning subsistence and other necessities of life and inclusive of all individuals presently residing elsewhere (in the country or abroad) whose principle commitments and obligations are to this household.

**Community:** A social group of any size whose members reside in a specific locality, share government, and often have a common cultural and historical heritage. In the case of this research we will focus on the smallest administrative unit in each country.

**Main Respondent:** A person that is a member of the household, at least 18 years old, and the most knowledgeable person on financial and social matters of the household. Preferably the main respondent is the head of the household. If the head of the household is not at home at the time of the interview, the spouse of the head of the household would be a good alternative.

**Household Members:** Includes all members of the household regardless of age, country of birth, or maternal/ paternal ties.

**Head of Household:** Person who is responsible for generating and managing the largest part of the household income and making household decisions.

**Children:** All household members under the age of 18.

**Elderly:** All household members 65 and over.

**To 'live' in a country:** To reside in a country for a *continuous period* of three months or more.

**Migrant:** A person who currently lives in a country other than the one he/she was born in and has lived there for at least three months.

**International migration:** A move across international borders for a stay of at least three months.

**Return Migrant:** An individual who has returned to the country of origin either voluntary or forced to live fulltime after a minimum of three consecutive months living in another country.

**Monetary remittances:** Money transfers.

**Social remittances:** The ideas, knowledge, behaviors, identities, and social capital that flow from receiving to sending country communities.

## 3. ANSWER CODES

The following answering codes are used throughout the survey:

- |    |  |
|----|--|
| 77 | No answer: the respondent does not want, or prefers not to answer the question |
| 88 | Don't know: the respondent does not know the answer to the question            |
| 99 | Not applicable: the question is not applicable to the respondent               |

## 4. ANSWER CODES PER COUNTRY

The survey contains specific answer categories for the different countries in which the survey is conducted:

- |       |             |
|-------|-------------|
| 11-19 | Burundi     |
| 21-29 | Afghanistan |
| 31-39 | Morocco     |
| 41-49 | Ethiopia    |
